

# AZEK PREFINISHED TRIM AND SIDING

# AZEK® PREFINISHED TRIM & SIDING

LONGEVITY | BEAUTY | EFFICIENCY

➤ Moisture and Rot-resistant

➤ Faster Job Completion

➤ On-Trend Rich Colors

## START WITH THE BEST

AZEK Trim and Siding is made to perform beautifully and engineered to last a lifetime. The appearance and texture of natural wood is captured in high-tech polymers that are impervious to wood's worst enemy: moisture. That means no rotting, warping, or splitting—even with ground or masonry contact.

AZEK 7" Straight Shingle Siding and Trim in Industrial Revolution

AZEK 6" Staggered Shingle Siding and Trim in Delicate White

## PREPARE FOR SUCCESS

AZEK Trim and Siding undergoes a factory treatment that helps paint go on smoother, dry faster, adhere stronger, and last longer. PaintPro® Technology from AZEK is like priming but works at a molecular level to deliver the best substrate for paint.

## BEHOLD THE BEAUTY

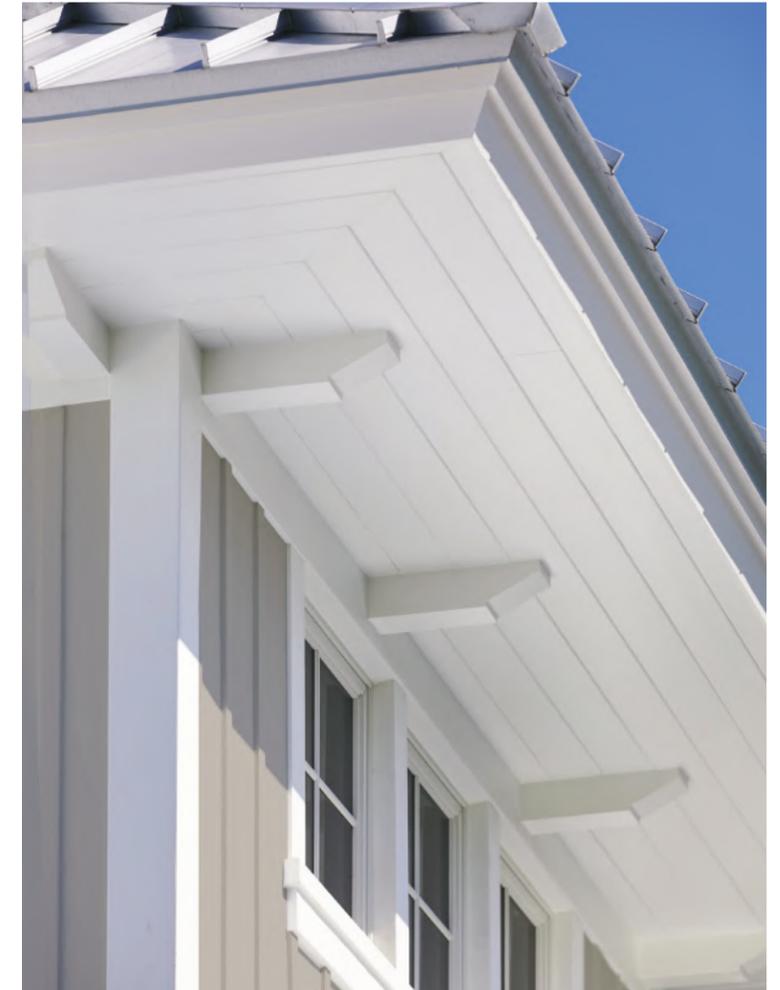

Edmund Allen, AZEK's prefinishing partner, uses top-quality paint, automated application, and climate-controlled curing to deliver rich, beautiful colors—light, dark, and in between. Special formulations deliver the solar reflectivity that lets polymers perform at their best.

## FULFILL YOUR EXTERIOR NEEDS

AZEK Prefinished Trim and Siding has it all: a consistently fine paint finish, time and labor savings at the job site, unbeatable warranties, and most any profile you may need.

### AVAILABLE PROFILES:

- 5" and 7" Straight Shingle Siding
- 6" Staggered Shingle Siding
- AZEK Sheet 8', 10', and 12'
- AZEK Trim
- Cornerboards
- One-Piece Skirt

TOP COLORS.  
TOP PERFORMANCE.

AZEK Prefinished Trim and Siding uses high-quality, solar-reflective paint from PPG to ensure rich color and a long-lasting finish.

Touch-Ups: Use only supplied touch-up paint. Avoid painting large areas. A cotton swab works best for small areas. If more touch-up paint is needed, please contact your dealer.
